

Emergency Alert (E-lert) Service

For several years, Wayne Marano has been operating a private E-lert service for those Highland Hills residents who choose to be included on his distribution list. This service provides local rapid response alert notifications of security issues (suspicious activities, vandalism, etc.), natural disaster assistance, lost pets, and other matters of an urgent nature that are called to his attention. Any homeowner can forward an item of urgent interest to maranobw@earthlink.net for further distribution.

Subject matter that is not part of this service: homeowners' association issues, political commentary, commercial notices, SPAM, etc.

The service is not affiliated with the Highland Hills Maintenance Commission, although it *may* include urgent information provided to Wayne by HHMC's Safety & Awareness Committee Chair. Since these issues are not confined to our development, any Bell Hill resident can be on the distribution list. This distribution list is private and will not be distributed. The email subject line will be "Bell Hill E-lert".
